

ENPER EXIST

WP 4 - Roadmap

WP 4 – Roadmap objectives

- Setting up interaction with interest groups.
- To give a clear overview of possible legal measures for existing buildings with illustration by available examples and proposals in preparation.
- To give indications of alternative strategies for a wide scale improving the energy efficiency of existing buildings
- To identify possibilities (including pro's and cons) for widening the scope of the EPBD in case of a future revision of the requirements of the directive
